FOR IMMEDIATE RELEASE

MICRO KEY SOLUTIONS LAUNCHES NEW WEBSITE

Kissimmee, Florida USA - Micro Key Solutions, a leading provider of world-class software solutions for the security alarm industry, is proud to announce the launch of their new website (www.microkey.com). The new site officially went live at the end of September 2012.

The purpose behind the complete redesign was so that the website would reflect a clear message of what Micro Key Solutions offers companies in the Security Alarm Industry through the use of interactive media and thorough content. "We have been technology leaders for our industry for almost three decades, it was very important to us for our website to reflect this since it represents our main online presence" said Micro Key Solutions president, Victoria Ferro.

The new website displays a much sharper and cleaner look and features numerous beneficial functionalities including:

- Software Updates and Industry News Blogs
- Powerful Testimonials
- Meet the Leadership
- Accountant Perspectives of the Millennium Management Modules
- Full Product/Benefit listings complete with Videos
- Upcoming Events
- Integration Partners

"We are very proud of the end result and look forward to our current and potential customers utilizing what the new website has to offer," said Micro Key's marketing specialist, Bailey Bhogal.
